EARLY
CAREER
RESEARCHER
CONFERENCE

TRANSDISCIPLINARY GLOBAL PERSPECTIVES ON
WATER AND WASTE SERVICES

2022

21 June - 23 June 2022

Loughborough, Leicestershire, United Kingdom

Conference 2022 – Water-WISER CDT (waterwisercdt.ac.uk)// WISER.ECR.Conference@gmail.com

Organised by:

Loughborough University

UNIVERSITY OF LEEDS

Cranfield University

Invitation from the organising committee,

With the absence of face-to-face conferences over the past two years the 1st Water-WISER Early Career Researcher's Conference on transdisciplinary perspectives on water and waste challenges, will be a golden opportunity for researchers and professionals alike to reconnect and network in person.

This conference has been developed by Early Career Researcher's (ECR), with ECR's in mind, as conferences are an amazing platform to promote interdisciplinary research, all while bringing together academics, and professionals from a variety of backgrounds with a common goal. This year Water-WISER's ECR conference aims to bring together a multitude of cohorts from different doctoral training programmes, independent researchers, and various industrial and charitable stakeholders, to bring an all-inclusive opportunity for researchers to inform and excite a larger audience on the value of their research in emerging developments in Water.

We have devised a number of sessions to encompass the vast array of topics included in water research. Conferences are only as good as their participants and we encourage you to actively participate in this conference through the submission of your abstracts on Emerging developments in Water Research, divided into the following sub themes:

- **Groundwater and Water Resources Management**
- **(Delivering) sanitation and hygiene (infrastructure and services)**
- **Circular Economy**
- **Inequalities in Public Health**
- **Climate hazards, resilience, and adaptation**
- **GIS and remote sensing**
- **Economics and Finance**
- **Governance, Politics and Policy**

If you're struggling to decide which topic your research falls into, please email.
WISER.ECR.Conference@gmail.com

Please upload all submissions to the following form
https://forms.gle/eyyiWEPLhUtt3FJY9

Key Dates
4th February 2022 abstract submissions open
16th April 2022 abstract submission closes
2nd May 2022 notification of accepted abstracts (for posters and presentations)
24th May 2022 Poster submission closes
6th June 2022 presentation submission closes

If your research or work pertains to any of the above themes from laboratory to demonstration scale and social studies, we welcome your submissions.

Abstracts should be no longer than 2 pages, including figures, tables, and references.

For more information, please follow the template provided on the conference website.

The final submission date for abstracts is **16th April 2022**, submissions will be peer-reviewed, and authors will be notified of the decision on their abstract by the **2nd May 2022.**

Condition of Presenting

By submitting an abstract, you are consenting to be the corresponding author and the first point of contact for all communication regarding your submission. You will be responsible for communicating with any other authors of the submission.

Once the abstract is selected for either platform presentation or poster presentation, at least one of the authors must register for the conference and present the research at the conference.

Procedure for submission

The following sequence of actions is the only method for submitting material for an oral or poster presentation at **Water-WISER ECR 2022**

You are asked to submit an abstract whether you intend to give an oral or poster presentation. **The maximum length of your abstract is to be 2 pages (A4) of text, figures, tables, and references.** A template can be accessed on the conference webpage or by clicking HERE.
